Enhanced Viewing Experience

The HMX 441 kit enhances the viewing experience with the ability to view and control 4K UHD content at each TV location without the need for additional subscriptions. Featuring HDCP 2.2 compliance and compatible with previous HDCP versions ensuring viewing on legacy 4K displays.

Advantages for installers and clients

- Compact and super slim PoC receivers sit discreetly behind the latest generation ultra-slim TV wall mounts.
- Easy cable management can be achieved with all inputs and outputs on the same side of the receiver.
- The matrix is compatible with RS232 / IP drivers for Control4, RTI, Elan and Demopad.
- Directional PoC from the Matrix to the Zone and directional IR Zone to the Matrix reduces installation costs.
- Hot pluggable
- Enjoy the highest audio standards currently available that a source can deliver. Mirror output designed to be used with AVR enabling up to 9.2 CH audio via HDMI, Toslink 5.1 and PCM L&R stereo outputs simultaneous.
- Recommended that CAT 6 cable is installed between the central hub and each TV location to deliver audio, UHD video, IR and command signals.
- Operating Distance 70m@1080p, 40m@4Kx2K
- 4K UHD compatible TV's and sources required to view 4K UHD content at main and secondary locations.
